

## A SUCCESSFUL 2014

- 97 adults have enrolled in English classes or are working one on one with a volunteer English tutor, compared to 69 adults last year.
- 41 children's reading skills have been enhanced through our Read to Succeed programs in West Bend and Hartford.
- Over 400 Hispanic residents have participated in and benefited from our Latino Healthy Lifestyle Choices Project and the 35 various health screenings, seminars and activities.
- 56 Hispanic and non-Hispanic children took part in our Summer Spanish Camps this summer.

- 20 Hispanic children participated in a Summer Reading Program at the United Way Resource Center in Hartford.

- We've recruited over 65 new volunteers.
- We've assisted 5 individuals in the studying and preparation to become a U.S. citizen.
- The amount of hours the volunteers have put in this year is equivalent to Casa receiving \$55,518.50. (in kind donation value)
- We hosted our 2nd annual event and fundraiser "Fiesta Latina" in West Bend, which brought together around 800 people from our diverse community as we celebrated Latin American culture. Save the date for our 3rd annual event on May 17, 2015!

## IN THE LAST YEAR:

**We continued to provide our important literacy programs in 2014:**

Our Hispanic adult education initiative provides educational skills and language training to Hispanic individuals, focusing on workforce development and everyday living topics. During the 2014 Winter/Spring semester, we held 2 adult English classes at our facility in West Bend and 2 classes at St. Aidan's Episcopal Church in Hartford. For the 2014 Fall semester, we have 2 classes at our facility in West Bend and 2 classes at the United Way Resource Center in Hartford. Individuals who cannot attend our classes are paired with qualified volunteer English tutors that work with them one on one or in small groups.

Our adult literacy initiative also includes community bridge seminars that help educate Hispanics on a variety of topics including financial literacy, workers' rights, family communication and encouraging enrollment in secondary education.

Our Hispanic child education initiative encourages increased English reading skills and promotes the importance of education and learning. During the 2013-2014 school year, we successfully continued our after school program, Read to Succeed, at Green Tree Elementary in West Bend and at St. Aidan's Episcopal Church in Hartford. This fall, we started the program again at Green Tree and at the United Way Resource Center in Hartford.

Our health literacy initiative, the Latino Healthy Lifestyle Choices Project, aims to educate Spanish speaking families to make better lifestyle choices in the areas of nutrition, exercise and management of chronic health conditions. We have served over 400 Hispanic adults and children, facilitated 35 different health seminars, screenings and activities, collaborated with many health and wellness entities, and distributed over 800 Spanish language newsletters to community members.
